About Fiixup in Bangalore

Fiixup has been sending certified mechanics to customers' doorsteps across Bangalore since 2020, covering everything from a dead battery in Indiranagar to a bike breakdown near Electronic City. Every technician is ITI-certified or has completed Fiixup's in-house training programme, arrives with a fully equipped service kit, and provides a written estimate before any work begins. All repairs and parts are backed by a 30-day warranty, and the service now reaches more than 50 areas across the city — from Yelahanka and Hebbal in the north to Electronic City and Bannerghatta Road in the south.
